Subject: Participation of the University of Lisbon in the European Consortium coordinated by the EuroMediterranean Progressive Policy Institute (EMPPI)

Dear Prof. Dr. Román Reyes,

We thank you for having invited the University of Lisbon to take part of the European Consortium coordinated by the EuroMediterranean Progressive Policy Institute (EMPPI) and we are very pleased and interested to respond affirmatively to this invitation. We also would like to add two different additional areas related with environment, namely, climate changes and monitoring climate changes, relevant international subjects, where the University of Lisbon has a good and recognized expertise.

We feel particularly honoured to join a network of prestigious academic institutions and we expect EMPPI can be soon recognised as a Centre of Excellence by the European Commission.

The University of Lisbon will be very keen to contribute for the activities to be developed and for the further quality recognition.

Sincerely yours,

Rector,
